⊙ PROFILE

I have worked as an Operation Consultant for over 2yrs and I have gained a lot of skills to improve myself. Growing Technology helped me to choose my career as a developer. I taught myself and learn programming languages like Java, JavaScript, Python, TypeScript, etc. I always looking for a good opportunity to learn more and improved my skill as well as get prior working experience.

⊙ EXPERIENCE

Uber India Pvt Ltd, Kolkata
— *Operation Consultant*
24th April 2017 - 5th September 2019

Key Responsibilities:

- Gave Support from Kolkata hub to the Driver's and Partner's for solving their Day to Day issues as a Customer Support Representative (Greeenlight Expert).

Uber Care (Project) :

- Worked as a Lead for the project Uber care with Vendor members in the team and followed up the data with the central team.
- Worked closely with the Product Vendor for taking feedback and helped to improve the data for Kolkata City. Built a chain to share the vendor's data with the central team for providing helpful feedback.
- Made some creativity regarding the Uber Care to awareness for the Driver-Partner.
